

Dec. 10, 2014

Mr. Dwayne Terry  
General Manager  
Keelow Craft Boats

Dwayne,

I would like to thank you and your team on the professionalism throughout the process of procuring and the communication that was given to me during the build of the boat. I was also impressed with the financial process and payment plan during the different stages of the build.

Upon arriving at your workshop I was met by Mike who was more than willing to ensure I was informed and understood all aspects and functions of the boat and was a pleasurable experience to say the least.

I am impressed with the build quality and the handling and performance is outstanding. I would highly recommend your company to all who are in the market for this type of boat.

I am more than impressed with service and the product received.

Mark Pankhurst  
Branch Director  
Operational Management
